

AMELEKS CORP.

Workshop on GPRS Testing and Certification

on 5th December 2001 in Taipei / Taiwan

7 layers and the Taiwan based corporation AMELEKS are cooperating in order to give a workshop on the subject of GPRS testing and certification.

GPRS, based on the GSM technology, allows high speed data rate transmission and proves to be a very efficient mobile on line solution. First GPRS systems have been tested and put into service worldwide and the related technologies, basic infrastructures and network have been developed quickly. With GPRS new business chances can be developed now.

AMELEKS and 7 layers are organizing a GPRS testing and certification workshop. It has been set up in order to support Asian manufactures and suppliers who are active in the Asian markets especially and will deepen their knowledge about GPRS testing and certification issues and help them to shorten time to market.

The workshop will be supported by the promotion office for wireless communication industrial development, the Ministry of Economic Affairs, Taiwan.
